SEAMLESS INTEGRATION AT YOUR SERVICE

e7 Group stands as a driving force behind progress, forging strong, long-term partnerships with the world's most influential companies and government entities. Our commitment goes beyond providing solutions—we are shaping industries, redefining standards, and paving the way for a more secure, connected, and dynamic future.

At **e7**, innovation is not just what we do—it's who we are. With a relentless pursuit of excellence, we deliver cutting-edge expertise backed by a proven track record of quality and reliability. Our vision extends beyond today, as we anticipate the evolving needs of businesses and institutions, ensuring they stay ahead in an ever-changing world.

From identity solutions to printing, packaging, education and delivery, we provide seamless solutions with seamless integration—designed to work together effortlessly and always at the service of our clients.

PIONEERING THE FUTURE WE WANT TO SEE

THIS IS FUTURE MAKING

At **e7 Group**, sustainability is at the core of our operations. We continuously optimize energy efficiency, reduce GHG emissions, and work toward decarbonization to minimize our environmental impact. With an ISO 14001:2015-certified Integrated Management System (IMS), we uphold the highest environmental standards. Our green solutions include sustainable logistics with flex-fuel fleets and electric bikes, eco-friendly materials like recycled paper and sustainable packaging, and responsible practices such as energy-efficient printing and waste reduction—ensuring innovation and sustainability go hand in hand.

THIS IS FUTURE THINKING

At **e7**, innovation is our foundation. We harness cutting-edge technology, from AI-driven security and smart authentication to next-generation printing, ensuring precision and reliability. Our future-ready solutions anticipate tomorrow's challenges, evolving with market needs to set new industry standards in identity, brand presence, education, and logistics.

IDENTITY SOLUTIONS

INNOVATION THAT MOVES THE WORLD

e7 Security leverages the latest in secure printing to protect sensitive personal and corporate data. We serve diverse sectors, including government, banking, telecom, retail, hospitality, and transport, delivering advanced security and personalization solutions.

As a leader in secure printing and identity management, we support governments and global businesses with reliable, end-to-end data protection solutions.

GOVERNMENTS

Identity solutions

We manage the entire identity document lifecycle—from enrolment and data preparation to secure personalisation, chip encoding, and PIN management. Our expertise extends to instant issuance, case management, document verification, and quality assurance. With public key infrastructure (PKI), **e7 Security** also provides secure solutions for the creation, storage, and distribution of digital certificates.

Border and travel

We're able to provide an interoperable, fully scalable suite of products and services to help governments design secure border control solutions. Our biometric technologies quickly authenticate identities through face, fingerprint and iris modalities, allowing border forces to determine if a person should be allowed entry.

eGovernment

We provide individual solutions for digitising documents, improving security across all government and corporate sectors.

Biometrics

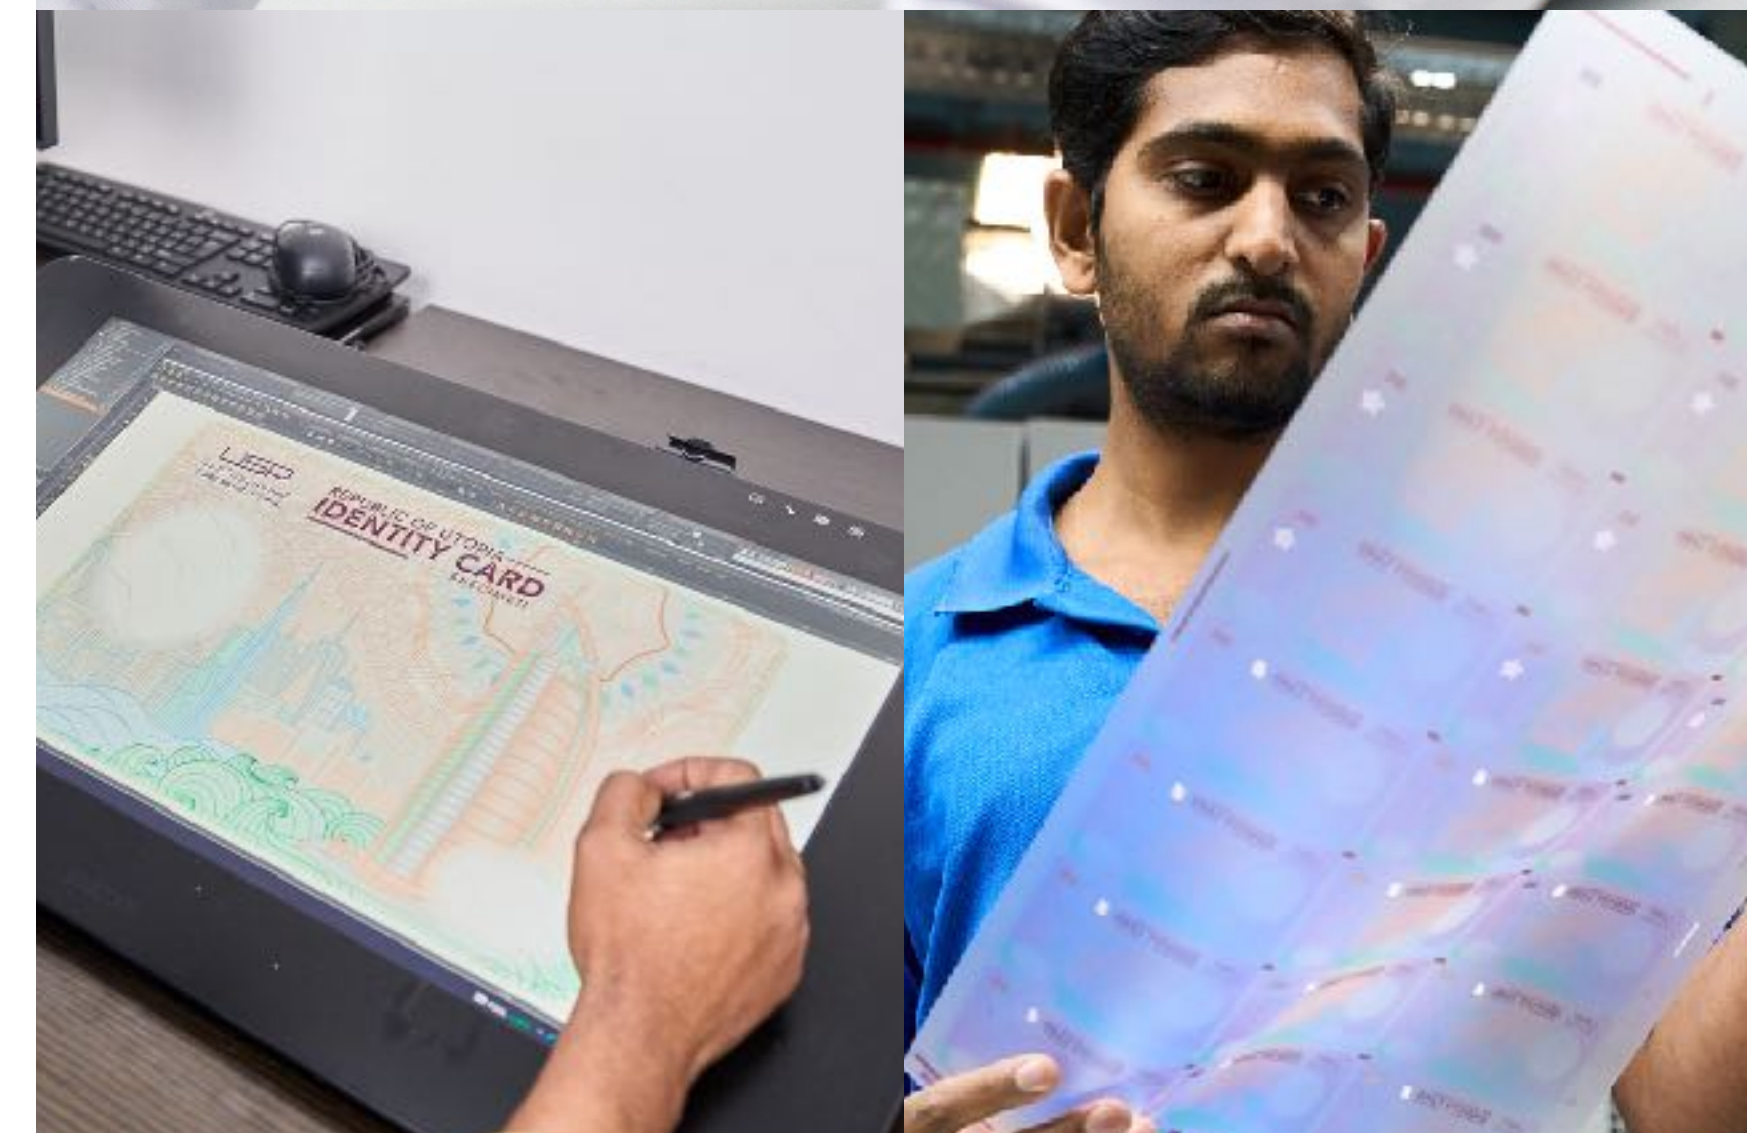

We integrate advanced biometrics—face, fingerprint, and iris—into scalable authentication systems, ensuring data safety. Partnering with governments, we deliver cutting-edge security solutions for projects of any size.

Tax stamps

Supporting governments in physical tax collection tax stamps. Tax stamps can be created to carry serialised codes for item-level production monitoring and supply chain track and trace, ensuring governments receive accurate tax revenue. **e7 Security** offers various types of Tax stamps with high security features.

Ballot papers

Secure, traceable ballot papers that are easy for constituents to use and accurately processed by ballot counting staff are critical to the integrity of an election. We uphold the strictest quality control measures with regard to ballot production. **e7 Security** has the capacity to produce 25 million Ballot papers per month, with various security features included.

BANKING

Payment card personalisation

e7 Security produces a range of different payment cards from small orders up to quantities in the millions. We are also experts in producing Europay, Mastercard, Visa (EMV) cards with varying memory capacities and operating systems that can be tailored to individual project requirements – and manufacture up to 25 million EMV cards a year.

From plastic manufacturing and personalisation to fulfilment, we work with domestic and international clients to deliver the highest quality products on time and on budget.

Personalisation bureau services

Our personalisation bureau, based in Abu Dhabi, allows **e7 Security** to offer payment industry companies total card solutions and create truly unique products.

- Electronic personalisation: Contact, contactless, dual-interface chips, and magstripe encoding.
- Custom designs: Embossing, indent printing, color image, thermal, and drop-on-demand printing.
- Packaging: Quality-controlled fulfilment with inserts and promotional materials.
- Secure delivery (UAE): Door-to-door courier service with 24/7 support.eGovernment

TELCOS

eSIMs

These digital SIMs allow customers to activate a cellular plan from their carriers without the need for a physical SIM. Up to 8 eSIMs can be installed on each phone and they allow 2 contact numbers to be used at the same time.

SIM card production

e7 Security has the capability to produce over 15 million SIMs a year. We also offer a range of substrates and print finishes to allow our clients to personalize SIMs to match their corporate branding.

Our SIM services include CDMA, RUIM, GSM 2G, GSM 3G and LTE SIM – including various memory capacities, browsers and applets to match project requirements.

Our SIM services include CDMA, RUIM, GSM 2G, GSM 3G and LTE SIM – including various memory capacities, browsers and applets to match project requirements.

Sizes include 2FF, 3FF, 4FF, full card, half card and quarter SIM.

We manufacture using PVC, recycled PVC and ABS.

SIM card packaging

We provide SIM fulfilment packaging complete with leaflets, user manuals and any promotional literature. All packaging is quality controlled to ensure the integrity of the pack. We then courier packs direct to customers anywhere within the UAE.

TRANSPORT

Contactless cards

We print on different types of plastic with a contactless chip built in. We also add individual photos for easy identification. Cards can include various memory capacities and operating systems depending on project requirements.

We produce contact chip, contactless chip, hybrid or dual interface chips. We use advanced chip technologies including MIFARE Classic, MIFARE Plus, MIFARE DESfire and Calyps.

Pre-personalised paper tickets

These travel tickets have individual serial numbers for secure traceability and are customised for individual vending systems.

Account based ticketing (ABT)

We offer ABT solutions with closed or open loop cards, with or without payment scheme certification.

At e7 Group, we are proud to be among the few companies worldwide to hold these prestigious certifications.

PACKAGING SOLUTIONS

MAKING A TANGIBLE DIFFERENCE TO YOUR BRAND

Like all industries in the 21st century, the printing industry must adapt to meet future client demands and align with the global shift toward more sustainable production. **e7 Packaging** is ahead of the curve, leveraging state-of-the-art technologies to create innovative, environmentally friendly packaging solutions for a diverse range of needs.

PACKAGING - OUR SERVICES

Structural design and prototyping

Our advanced software allows clients to visualise and test concepts before packaging production.

High quality printing

Because we've invested in state-of-the-art equipment, we're able to produce the finest finishes across most materials including corrugated board, paper cups, labels and metallic finishes.

Special finishes

We're experts in embossing, debossing, foil stamping, UV/WB coating, drip-off varnish and matte/gloss/velvet lamination.

Variable data printing

Our integrated approach allows us to incorporate variable data into our packaging, including barcodes, QR codes, serialisation numbers and personalised messaging. This in turn enables detailed product traceability, authentication and customisation.

Supply chain management

Our streamlined production process capabilities extend to inventory management, warehousing, fulfillment and distribution.

Sustainability

We source certified recyclable, biodegradable and compostable materials, implementing industry-leading sustainability standards to offer our customers a range of eco-packaging options.

Duplex cartons

e7 produces high-quality Duplex Board cartons with advanced offset printing. Our finishing includes lamination, die-cutting, foiling, and flame sealing for precision and durability. We also offer Braille printing, a regional exclusive, for enhanced accessibility.

High-Quality Flexo Printed Labels

We produce 8-color flexographic labels for packaging and airline boarding passes, ensuring precision, durability, and brand enhancement across industries.

Paper cups

Promote your company, brand or message in an innovative and cost-effective way with custom printed cups. From a fluffy to a large latte cup and everything in between we have the solution for you.

PRINTING SOLUTIONS

THE NEXT CHAPTER IN THE FUTURE OF PRINTING

e7 Printing is a long-established regional powerhouse, a trusted partner across a range of publishing sectors that include newspapers, magazines and books, as well as large scale out-of-home print projects and educational materials. We constantly upgrade our print equipment so all our clients can rest assured that we'll always deliver the world-class premium service their print projects deserve.

PRINTING - OUR SERVICES

Graphic design

Our in-house designers and artworkers help clients prepare every aspect of any digital file format in preparation for print. From retouching to proofing the finished artwork, this stage is essential for the finest finished product.

Offset printing

Advanced printing technologies deliver crisp and vibrant prints with perfect colour accuracy and sharpness.

Special print

We offer our customers a full range of unique finishes and effects, including foil stamping, embossing, die-cutting and varnishing.

Digital printing

Not every project required a huge run, so our digital offering is perfect for on-demand and short run jobs, providing flexibility, cost-effectiveness and quick turnaround times.

Large format

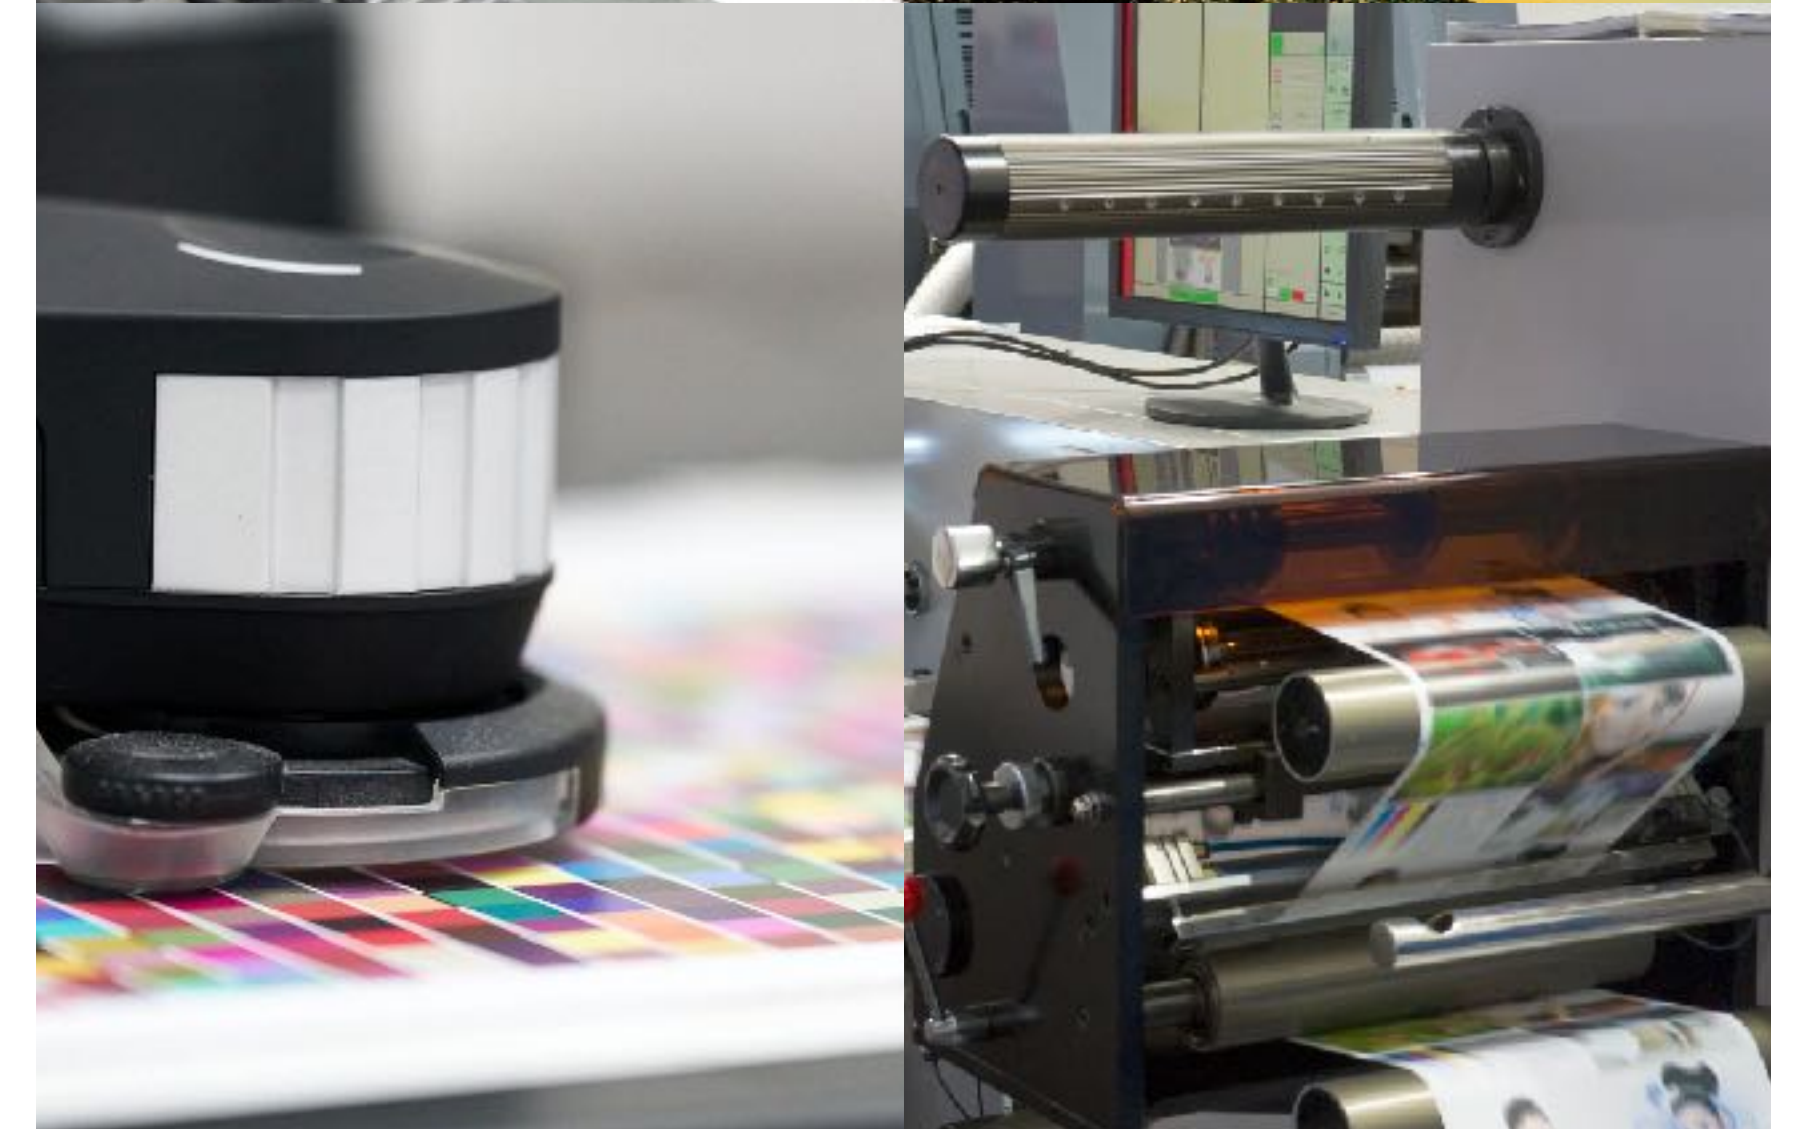

With advanced digital printing we handle large scale projects including billboard posters, banners and signage, reproduced in high resolution for complete clarity of image.

Finishing services

Our experienced team can provide binding, laminating, folding and trimming services to fully complete all your projects.

Fulfilment and distribution

Our truly integrated service includes warehousing, packing and shipping, helping to streamline projects and deliver finished products directly to our clients or end users.
